

HADU

Electro-Mechanical Engineering

Professional Electro-Mechanical Solutions in Ethiopia

Company Profile

Power design | MV/LV distribution | Solar | Generators | Telecom power | HSE

BADMAS Building, Office No. 04, Bole Sub-city, Woreda 03, Addis Ababa, Ethiopia

+251 930 033 828 / +251 911 791 270 | mirishtam@gmail.com

Company Snapshot

HADU Electro-Mechanical Engineering was established in Ethiopia to provide professional support in the electro-mechanical sector. The company combines electrical construction experience with designers, engineers, administrators, technicians, supervisors and site personnel.

19+	\$15M+	Nationwide
Professional and technical staff	Largest listed contract value	Project delivery coverage

Mission, Vision & Objective

Mission

Deliver quality electro-mechanical engineering services on time and at competitive cost through safe technical competence, professional integrity and customer-focused quality assurance.

Vision

Become a leading provider of electro-mechanical solutions and services by building long-term partnerships and delivering smarter engineering services across Ethiopia and the region.

Main Objective

Meet customer requirements through quality equipment, materials, services, erection, installation, management systems, employee training, regular review and continual improvement.

Core Services

Service	Capability
Power Design & Installation Works	Electrical power design, MV/LV distribution networks, overhead and underground lines, commissioning and handover.
Lifts & Escalators Installation	Installation coordination and technical support for lift and escalator systems.
Solar System Supply & Installation	Solar PV sizing, supply, installation, commissioning and maintenance planning.
Generator & Appliance Installation	Procurement, installation and commissioning support for standby power and related equipment.

Service	Capability
Telecom Fiber Line Works	Telecom fiber line works and commercial power connection support for communication infrastructure.
Laboratory Equipment Supply	Tender-focused supply of laboratory instruments, datasheets, installation coordination and after-sales documentation.
Other Electrical & Mechanical Works	Street lighting, compound lighting, mechanical/electrical work packages, BOQ support and handover documentation.

Relevant Project Experience

Project	Client	Location	Scope
UEAP B_2/01 Lot_6 MV/LV Distribution Network	UEAP	North Shoa Oromia and South Wollo	122 km medium-voltage line and 52+ km low-voltage distribution works.
UEAP B_2/03 Lot_74 Tekeze-AbiAdi 33 kV Line	UEAP	Tigray Region	96 km concrete pole 33 kV double line, net stations and village MV upgrades.
UEAP Networks and D.B. Blanket Factory LV Lines	UEAP	Ethiopia	MV/LV distribution works and LV underground line installation at D.B. Blanket Factory.
Safaricom Ethiopia Commercial Power Connections	Safaricom Ethiopia	Amhara Region	Commercial power line connection services under SOW Ref. No. 002.
Bonga Town Street Light Works	Completion certificate	Bonga Town	Civil and electrical works for street lighting. Contract amount: 10.23 million ETB.
KEC Mojo-Adama Compound Electrification	KEC International	Mojo-Adama area	33 kV underground cable, 220 V street lighting, 0.12 km UG cable and 104 steel poles.

Management & Staff Resources

Role	Name	Qualification / Profile
General Manager	Mr. Mehari Admassu	BSc Electrical Engineering
Projects Head	Addisu Dagne	Civil Engineering background
Finance Head	Senait Tadele	BA Accounting
Human Resource & Business Administration	Belachew Admassu	MA Business Administration
HSE Manager	Eden Berhane	MSc Public Health, Electrical Safety and Risk Assessment Certified

The company profile identifies 19+ staff members across management, engineering, surveying, tower erection, installation, foreman, crane operation and technical roles. Additional technical staff and daily labor can be hired according to project volume.

HSE / OSH Management

HADU's OSH management system is built around policy, organizing, training, documentation, communication, planning, implementation, evaluation, audit, preventive action, corrective action and continual improvement.

Name	Responsibility	Qualification
Eden Berhane	HSE Manager	MSc Public Health; Electrical Safety; Risk Assessment
Tsion Kindalem	HSE Team Leader	BSc Electrical Engineering; Electrical Safety; Risk Assessment
Mulat Bekele	Site Engineer	BSc Electrical Engineering; Electrical Safety; Risk Assessment
Asalfew Asfaw	Site Engineer	BSc Electrical Engineering; Electrical Safety; Risk Assessment
Besufekad Mamo	Supervisor	Diploma Electricity; Electrical Safety; Risk Assessment
Zerihun Melese	Supervisor	Diploma Electricity; Electrical Safety; Risk Assessment
Haile W/Aregay	Supervisor	Diploma Electricity & Management; Electrical Safety; Risk Assessment

Equipment & Machinery

- Truck-mounted crane, 6 ton
- Pickups and Isuzu trucks
- Welding machines and arc welding machines
- Crane, chain blocks and wire strainers
- Asphalt cutters, jack hammers, concrete mixers and vibrators
- Tool sets, drilling machines, scaffolding, ladders and safety kits
- 7KW generators

Work Methodology

- Site preparation study, including feeder lines, MV routes, net station locations and safe positioning.
- Surveying and preparation of single-line diagrams for pole pit locations, underground routes and mini-substation locations.
- Transportation and supply coordination for poles, construction tools and accessories.
- Pole pit preparation, pole erection, trenching and PVC pipe laying with supervision and precision.

- Accessories fitting, stringing, cable jointing, grounding, compact substation laying and LV pillar installation.
- Commissioning, energizing and site handover with attention to technical checks and warranty obligations.

Company Values

- Quality, cost and efficiency in electrical materials and project delivery.
- Professional and technical excellence.
- Long-term client relationships.
- Human resource development and knowledge building.
- Transparency, professionalism, honesty, integrity and ethics.
- Process discipline, predictability and continuous improvement.
